A definitive local guide for equine enthusiasts.
THE SOUTHERN MARYLAND HORSE EXTRA is produced by the Southern Maryland Agricultural Development Commission (SMADC), a division of the Tri-County Council for Southern Maryland as a means to assist and promote the region’s horse farms and horse-related businesses and is compiled with information from sources throughout the state and in response to SMADC’s inquiries. Listings are voluntary and not intended to be an endorsement of any particular farm, business or organization.

SMADC’S VISION

SMADC’s purpose is to support farms and the future of agriculture in Southern Maryland. We are committed to expanding and promoting a viable and profitable agricultural farming community in Southern Maryland. While the primary focus is on the five southern Maryland counties of Anne Arundel, Calvert, Charles, Prince George’s and St. Mary’s, many of its initiatives reach statewide.

SMADC provides vision, support, grants and marketing and promotion to area farmers. As new farm economies are being formed, SMADC helps to streamline regulations and reduce obstacles.

SMADC is assisting farmers in creating a profitable farming future and informing the public on the importance of local farms to the overall economy. To achieve that goal, SMADC helps connect local farmers to their consumers and protects area farmland through local land preservation efforts.

SMADC has completed the disbursement of tobacco buyout funds to all buyout participants, developed a regional strategic plan for diversification and continues to provide agricultural grants, training and funding for land preservation as it is available.

Welcome to the Horse Extra

The Southern Maryland Horse Extra is the new and updated version of SMADC’s previous Equine Guide and is a comprehensive guide that connects consumers with the horse industry in the five county area of Southern Maryland (Anne Arundel, Calvert, Charles, Prince George’s and St. Mary’s).

Since the first settlers set foot in Maryland in the early 1600’s, horses have played an important role in the state’s culture and history. Today in Southern Maryland, the horse industry remains an important component of the region’s agricultural community. We are fortunate to have an amazing variety of horse stables to choose from offering instruction and a wide range of activities for all ages and abilities in every riding discipline.

Southern Maryland is also home to many specialized riding centers that provide nationally accredited equine-assisted therapy programs for individuals with special needs and also certified Maryland Horse Discovery Centers where visitors can interact with horses and learn more about these magnificent animals in a safe and friendly environment—no riding experience needed!

The Horse Extra lists more than 50 horse barns and facilities that offer riding lessons, horse-boarding, training, sales and breeding. Plus, listings that feature support services for horses and their owners including area hay producers, feed mills and suppliers, tack shops, farriers, vets, horse rescue and care facilities, area riding clubs and noteworthy Maryland equine organizations and associations. Also included is a section on state and county park trails systems that welcome equestrians. In addition to the Horse Extra, you can find more SMADC guides and links to the region’s farms and farm services at SMADC.COM.
